Steve Hughes *“Influence: The Art & Science of Changing Minds”*

How would you like to snap your fingers and your colleagues and customers would instantly agree with your position? It may not be that easy, however you can dramatically improve your chances for success if you understand how people make decisions and what causes them to act. **Influence** is a dynamic program that draws on the latest scientific research to illustrate how you can influence people to see things your way without resorting to manipulation. Best of all, you'll leave with practical ideas you can apply right away.

Nancy Belda *“Goal Setting for Effortless Success”*

Have you ever wanted to get from where you are to where you want to be? Nancy will share her humor through storytelling, audience participation AND valuable, time tested and proven ways to set meaningful, measurable goals that will quantum leap you to the next desired level.

Sue Ciullo *“Put Me in Coach”*

Chances are you are a big fan of the team win. The most successful people are exceptionally good team players. What if you could advance your team player skills from good to phenomenal? Sue will give you some practical tips that you can use immediately to set you on the course to MVP status.

Neil Ihde *“5 Characteristics of Successful Organizations”*

Have you ever been guilty of complaining? Of course! Me too. But what I've found as I've worked with great organizations is that they don't tolerate complaining unless it is constructive...unless there is a commitment to critically examine complaints, look for solutions, find the facts, and exhibit the courage to question assumptions and have tough conversations. This topic invites you to examine your organizational culture and offers opportunities for employees to have productive conversations on how they can contribute to the overall success.

Tim Pennington *“Best Practices from Top Shops”*

Products Finishing Editor Tim Pennington will present a look at the best operational and management trends and practices amongst the top finishing shops in North America over the past year, including looking at statistical analysis from the past year's Top Shops Benchmarking Survey, and the best tips and ideas from the elite shops.
